

LaiCa™

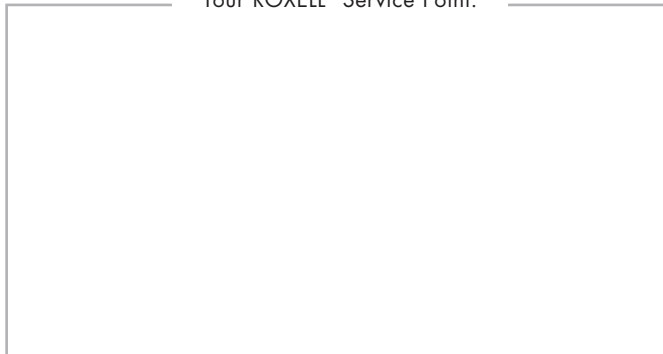

Pan feeding system for laying hens

TECHNICAL SPECIFICATIONS		ANIMAL INFO
		Production
Number of birds/pan (* EU)		29 (*) - 51
Average age at removal (weeks)		75
Average weight at removal (kgs)		1,9 - 2,2
Max. daily feed intake (grams/bird)		100 - 130
Density (birds/m ²)		6 to 9
		GENERAL TECHNICAL INFO
Pan assembly	Pan	Stepped
	Adjuster ring	Long
	Grill	12- strut
	Material	Polypropylene (nylon top support)
	Diameter	440 x 290 mm
	Average pan contents	600 g (feed level at 3)
Transport	Material tubes	Galvanized steel: 2,60 - 3,05 m
	Outside diameter tube	44,5 mm
	Feed amount	600 grams/meter tube
	Average transport capacity	Circuits: 1200 kg/hr - Lines: 450 kg/hr
	Max. house length per fill point	Circuits: 110 m - Lines: 150 m
	Max. pallet diameter	4 mm
Suspension points		Every 3 m
Average height		3,25 m

LaiCa™

Pan feeding system for laying hens

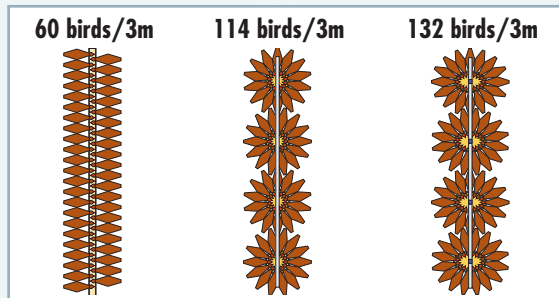

00902189 - ©ROXELL NV - 10/2009 - Leaflet LaiCa™ English

LaiCa™

1 Maximum use of your floor space

- The oval shape allows each pan to serve up to 29 laying hens or 44 birds per meter of feeding length. LaiCa™ complies with the EU-standards and is KAT-approved.
- The feeder tubes can be used as a perch while an anti-roost profile prevents the birds from soiling the pans. (C)

ROXELL®

LaiCa™

2 A cascade shaped pan for optimal feed intake

- The unique step pan prevents selective pecking and forces the hens to eat all feed ingredients. (A)
- The special wings on the cone stop the hens from grubbing in the feed.

3 LaiCa™ keeps feed costs under control

- The cascade shaped pan, the incorporated trough in the bottom and the pan lock make sure that the feed remains in the central part of the pan. (E)
- LaiCa™ has a high feed saver rim that prevents the spilling of feed.
- A handy adjustment ring allows a precise setting of the feed level. (D)

LaiCa™

4 Multiple applications

- LaiCa™ is ideal for floor feeding (free range or bio).
- Also perfectly suited for the feeding of layer parent stock: 12 wide grill openings guarantee easy access to the feed, also with non-decombed cockerels and hens.

5 Durable, easy to clean

- The pans can be fixed by clicking them on the grill (B) or by means of a hinge. They are made out of durable plastic that resists all common cleansing agents and detergents.
- The pans and the augers have a 10-year* warranty.

* Digressive warranty.
