

Automatic Egg Packer - Table Eggs

The Prinzen PSPC 30 is especially designed with and for egg producers for careful egg packing on trays. The unequalled points setting system (*a Prinzen innovation*), with a points down ratio of > 99,7% has proven its high percentage for years now. The gentle egg transfer, compact & flexible design and ease in operation explain why this packer is a successful unit in the PSPC series. Due to low energy costs and reduction of operating costs, the pay-back time of this egg packer is very short. The PSPC 30: a great help to increase your profit!

Ideal packer for layerfarms

- Suitable for almost every type of tray (cardboard/plastic 5x6)
- Ergonomic design: different lay-out options possible
 - Ease in operation by control panel
 - Compact lay-out: fits into almost every egg room
 - Low costs per packed egg

Better results

- > 99,7% Points down correction
- Gentle egg handling
- Top class print results (Ovoprint or Egg Flex stamping)
- Control from input to output

Durable and low maintenance

- Durable & welfare friendly materials (non corrosive)
- Stainless steel for easy cleaning
- Vital parts are easy to reach for maintenance
- Rapid return on investment
