

Automatic Egg Packer - Hatching Eggs

Used for packing hatching eggs into setter trays, this seven row packer is unique in its operational method. The Prinzen PSPC 7 is capable of packing into "offset matrix" tray patterns with a points down accuracy of better than 99,7% thus helping to raise the hatchability figures. The PSPC 7 also has the capability to use with 30 cell cardboard or plastic trays. This, together with its gentle egg transfer explain the continuing success around the world. As with all the PSPC range of packers, the PSPC 7 is very user friendly with simple operating controls. It's stainless steel construction and good floor access make end of the day clean down quick & easy.

Ideal packer for breederfarms

- Suitable for almost every type of setter tray with an "offset" matrix pattern, inclusive trays with "non-closing" pattern!
- Easy switch from setter tray to 5x6 trays (plastic/cardboard)
- Fits into almost every egg room: flexible & compact lay-out
 - Control panel for easy operation

Better results

- >99,7% Points down correction
- Ovoprint & Egg Flex stamping for optimum print results
- Gentle egg handling
 - Egg traceability from input to output
- Improvement of hatchability

Durable and low maintenance

- Welfare friendly and durable materials (non corrosive)
- Stainless steel for easy cleaning
- Optimum access to vital parts for maintenance
- Rapid return on investment

Automatic Egg Packer - Hatching Eggs

Standard Specifications

Capacity	20.000 eggs per hour
Power supply	400V - 3Phase - 50Hz - neutral/earth (other possibilities on request)
Buffer stock tray denester	30-cell tray plastic: 50 pcs 30-cell tray cardboard: 75 pcs Setter tray: depends on type
Buffer stock output belt	30-cell tray plastic/cardboard: 5 pcs Setter tray: depends on type

Possible Tray Types

30-cell tray cardboard (5x6)
30-cell plastic (5x6)
Jamesway (36, 42, 73, 77, 84, 84sst, 168)
HatcTech (88)
Chickmaster (48, 54, 130, 165)
Buckeye (132, 150)
Other (setter) trays on request

Options PSPC 7:

- Prinzen egg transport belt
- Extension of infeed belt
- Egg Flex 7R stamping
- Ovoprint A7 inkjet coding
- Elgra 3 hatching egg grader
- UV-disinfection unit
- PLU 18 Trolley Loader
